

### **Modification of Chairman's Mark:**

Upon further review of my Chairman's Mark and the language of the budget resolution that I laid before the Committee yesterday, our staff has uncovered a number of drafting errors or omissions, therefore I will now modify my mark to make the following changes which are reflected in the materials that have been distributed to all Members and their staff:

1. Correction to the levels in function 650 Social Security;
2. Revisions to the summary tables to reflect the correction to function 650;
3. Add clarifying language to the reconciliation instruction for outlays to the Finance Committee;
4. Change to the aggregate levels in section 218 the Reserve Fund for Stateside Grant Program.
