

# TRUMP'S BUDGET WOULD BE DEVASTATING FOR ILLINOIS

## If Trump's Budget for 2019 became law, it would:

- Eliminate health insurance for 965,000 Illinoisans by implementing the cruel “Graham-Cassidy” plan to **repeal and replace the Affordable Care Act**. This plan would slash funding for Medicaid, weaken protections for people with pre-existing conditions, and cause havoc in the health insurance market.
- Cut Medicaid by \$1.4 trillion over the next 10 years – 34 percent in 2028 alone – with Illinois's share representing \$46 billion. **Medicaid** provides funding for more than 60 percent of all nursing home residents, 40 percent of all children, 60 percent of children with disabilities, and nearly half of all births in the U.S.
- Slash the **Supplemental Nutrition Assistance Program (SNAP, or food stamps)** by \$213.5 billion, potentially eliminating nutrition assistance from 456,000 Illinoisans, 85 percent of whom live in households with at least one child, elderly person, or a person with a disability. Providing a “Blue Apron”-style, government-issued box of canned goods to make up for some of this cut is merely a cruel joke.
- Eliminate nutrition assistance for 25,500 pregnant women, new moms, babies, and toddlers in Illinois by cutting the **Women, Infants, and Children (WIC)** program by 13 percent in the final year of this budget.
- Deny heating assistance to 230,100 Illinois households – 79 percent of which include at least one elderly person, one person with a disability, or one child under five years old – by abolishing the **Low-Income Home Energy Assistance Program (LIHEAP)**.
- Cut off affordable housing assistance to 8,140 Illinois families, putting them at immediate risk of eviction and homelessness by slashing “**Section 8**” **Housing Choice Vouchers**.
- Cut **Head Start** in Illinois by \$485 million over 10 years, which – in any given year over the next 10 – could eliminate high-quality child care and early education for 4,640 low-income children.
- Eliminate after-school programs for 51,800 Illinois students by zeroing out the **21st Century Community Learning Centers** program.
- Make college more expensive by completely eliminating the **Direct Subsidized Loan** program that 220,900 Illinois students benefit from each year and by eliminating grants to some 54,500 Illinois students through the **Supplemental Educational Opportunity Grant** program. The Trump Budget also eliminates the **Public Service Loan Forgiveness** program and cuts **Federal Work Study** by 80 percent.
- End a home energy **weatherization** program that for over 40 years has helped make 416,000 Illinois residences more energy efficient. This program saves the average homeowner nearly \$300 a year on energy bills.
- Eliminate federal funding for 37 Illinois **community action programs** that provide thousands of low-income Illinoisans emergency food, shelter, heating assistance, transportation, and health care.
- Cut \$150 million in **Community Development Block Grants** that provide Illinois funding for affordable housing, transportation, and economic development.
