

TRUMP'S BUDGET WOULD BE DEVASTATING FOR TEXAS

If Trump's Budget for 2020 became law, it would:

- **Repeal the Affordable Care Act**, eliminating health insurance for 2.8 million Texans, abolishing protections for people with pre-existing conditions, and substantially increasing premiums for older Americans. If the Trump Budget became law, a 60-year-old living in Texas making \$25,000 a year could see their health care premiums increase by up to \$10,500 a year – from \$1,608 to \$12,284 in 2020, almost half of their income.
- Cut federal funding for Texas's **Medicaid** program by \$86 billion over the next 10 years. Nationally, the Trump Budget proposes to cut Medicaid by \$1.5 trillion over the next 10 years – 36 percent in 2029 alone. Medicaid provides funding for more than 60 percent of all nursing home residents, 83 percent of poor children, 48 percent of children with special needs, and nearly half of all births in the U.S.
- Make college more expensive for 253,000 Texas students by completely eliminating the **Direct Subsidized Loan** program and by taking away grants for 68,000 students by abolishing the **Supplemental Educational Opportunity Grant** program. The Trump Budget also eliminates the **Public Service Loan Forgiveness** program and cuts the **Federal Work Study** program by more than 55 percent.
- Eliminate after-school programs for 108,000 Texas students by zeroing out the **21st Century Community Learning Centers** program.
- Take away high-quality child care and early education for 12,150 low-income Texas children by cutting **Head Start** by 17 percent in the final year of this budget.
- Eliminate nutrition assistance for up to 955,000 Texans – 94 percent of whom live in households with at least one child, elderly person, or a person with a disability – by cutting the **Supplemental Nutrition Assistance Program (SNAP, or food stamps)** by \$220 billion nationally over 10 years.
- Take food out of the mouths of 109,000 pregnant women, new moms, babies, and toddlers in Texas by cutting the **Women, Infants, and Children (WIC)** program by 13 percent in the final year of this budget.
- Deny heating and cooling assistance to 124,000 Texas households – 81 percent of which include at least one elderly person, one person with a disability, or one child under five years old – by abolishing the **Low-Income Home Energy Assistance Program (LIHEAP)**.
